

GPSR safety assessment, BRIX JarKey Frost on card (B-2121)

Technical documentation:

Art. No.: B-2121

Description: JarKey Frost jar opener on card. No moveable parts.

EAN-13 barcode No.: 5709587021211

Country of origin: Denmark

Size: 14 x 5 x 2,7 cm

Net weight: 36 g

Colours: Transparent blue, green, red, orange and yellow

Material: ABS plastic

Description:

The original and design awarded jar opener fits all traditional preserving jars. The JarKey is placed against the lid of the jar, and with a slight lift, the vacuum is released, and the lid can now easily be unscrewed.

The JarKey is made of high density ABS plastic in an elegant design. JarKey has no sharp edges or points, no moveable parts, and is extremely durable. Dishwasher safe.

The unique thing about the JarKey is the special three-point principle that ensures the vacuum to be released by a gentle lift without damaging the lid or glass (jar). After releasing the vacuum, the lid can easily be unscrewed.

Internal risk analysis:

No specific risk of any kind. Safe to use.

No specific environmental risk. The product/ can be recycled.
